

SHOOT & SCALE

Short-form video that turns service-based founders into the obvious authority in their space. Done-for-you, end to end — we come to you, we record, we post.

“Shoot once. Scale everywhere.”

01 — LOGO

Primary · Ink on light

Reversed · White on tangerine

Accent · Tangerine on light

Keep clear space around the wordmark equal to the height of the ampersand. Never stretch, recolor outside these three lockups, add effects, or place the ink logo on a busy dark photo — use the reversed lockup instead.

02 — COLOR

Tangerine

#FF4D12 · Primary / CTAs

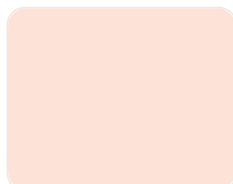

Ink

#14110D · Text / dark

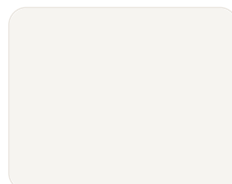

Stone

#6B655C · Body copy

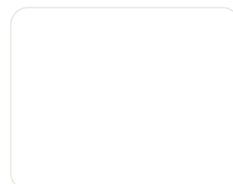

Ember

#FDE2D8 · Soft accent

Mist

#F6F4F0 · Panels

Paper

#FFFFFF · Background

White is the canvas. Tangerine is used sparingly — for calls-to-action, key words, and accents — never as a full-page wash. Ink carries the type. Ember and Mist add warmth to panels and section breaks.
